CCM thanks the Governor's ECS Task Force for its hard work as it concluded today

The CT Conference of Municipalities (CCM) thanked the Governor's ECS Task Force for its hard work as it concluded its work today. "The final report of the Task Force reflected many of the concerns raised by CCM over the need to (1) correct chronic state underfunding of PreK-12 public education; (2) update and fully fund an improved ECS formula; and (3) reduce the overreliance on property taxes to fund public education," said Jim Finley, CCM Executive Director and CEO. "CCM is now evaluating all of the newly-adopted recommendations and their implications for towns and cities and for compliance with state constitutional requirements."
